Company Profile

We take care of customers’ health by manufacturing reliable, safe, easy-to-use water appliances and refrigeration products. We support our customers’ businesses by offering high quality products, timely delivery, technology innovation and customized services.

Leading Position In The Industry

With our water appliances and refrigeration products exported all around the world, we accumulated knowledge and experiences in producing, managing, R&D and innovation. Aside from the biggest sale in domestic market, J&D nowadays has more than $30,000,000 overseas sale per year to support its leading position in the industry.

Products And Services We Offer

J&D supplies series of water appliances and refrigeration products. As for water appliances, we have water dispenser, water purifier, ice maker and so on, we also provide OEM service.

Valuable Customers

So far, J&D has close cooperation with hundreds of customers all over the world. Our valuable home appliances cooperators include... Customer-orientation is our principle throughout the company operation.

Strict Quality Control System

To ensure the high quality of our products, we operate our 8 factories, which hold more than 20 production lines to ISO 9001:2000 standards. Meanwhile, strict quality control is implemented to our parts suppliers. As a result, most of our products obtain the CE, GS, ETL, UL, SASO and “S” Marks.

The models, functions, datas and pictures introduced in this catalogue may be changed without notice.
P.O.U Water Dispenser Series

Point of Use: Direct connect to tap water / No bottle water needed

Desktop Hot & Cold Water Dispenser

16T-G: Compressor cooling
- The blue light panel design
- Reheating function
- VFD display

26T-G: Compressor cooling

Model | Cooling Power (w) | Heating Power (w) | Unit Meas. (mm) | N.W. (kg) | G.W. (kg) | 20° (pcs) | 40° (pcs) | Cooling Mode | AC Voltage
--- | --- | --- | --- | --- | --- | --- | --- | --- | ---
16T-G | 112 | 500 | 310×310×510 | 14 | 15 | 336 | 672 | compressor | 220V/50Hz
26T-G | 112 | 500 | 320×360×490 | 14.5 | 15.5 | 336 | 672 | compressor | 110V/60Hz

16L-ROG: Compressor cooling
With Reverse Osmosis filtration system
- 1. Input water aperture
- 2. Sealed top cover is different from bottled water dispensers
- 3. Float ball to control water level
- 4. 5 stages filtration system
- 1. Direct connect to tap water
- 2. 6 stages filtration system:
  1) Sediment filter: Remove dust, dirt, and granular impurities in the water.
  2) Activated carbon filter: Remove tiny organic particle, chlorine, heavy metals and harmful particle.
  3) NF membrane filter: Remove colloid, bacteria by adopting NF technology, filtration precision of 20-100
  4) Mineralization activation filter: Far infrared mineralizing stones provide mineral particles, which are necessary for human body.
  5) T33 post carbon: Taste and odor reduction.

Model | Cooling Power (w) | Heating Power (w) | Unit Meas. (mm) | N.W. (kg) | G.W. (kg) | 20° (pcs) | 40° (pcs) | Cooling Mode | AC Voltage
--- | --- | --- | --- | --- | --- | --- | --- | --- | ---
16L-ROG | 112 | 500 | 310×310×960 | 25 | 26.5 | 180 | 384 | compressor | 220V/50Hz
26L-ROG | 112W | 500 | 330×350×1080 | 24 | 26 | 238 | 490 | compressor | 110V/60Hz

P.S. Hot & warm or cold & warm water types are available.
OEM/ODM orders are welcome.

**Household Water Purifier Series**

- **Water Purifier: PC-01**
  - 5 micron inline PP filter
  - Granule Active carbon filter
  - 1 micron inline pp filter
  - RO membrane
  - Post carbon filter

- **Household (RO) Water Filter: RO-50**
  - Period to change filter: 3 to 12 months
  - Service Flow Rate: 0.5GPM(1.9LPM)-1GPM(3.8LPM)
  - Working pressure: 30-80psi
  - Max pressure: 125PSI
  - Max Temperature: 113F(45 C)
  - Cold Water Only

---

**Description of 5 Stages Filtration:**

The PP Pre filter can remove rust, hairs, sand, clay and floating substances, which are bigger than 10 μm. The activated carbon filter can absorb some remnant chloride, red worms, pesticides, methane, organic chemicals, unpleasant taste, odor or color as well as heavy metal particles. The Extruded carbon filter can remove some organic chemicals, pesticides, the floating substances, remnant chloride, unpleasant taste, odor or color as well as heavy metal particles. The Reverse Osmosis (RO) membrane can remove dissolved salts, heavy metals, bacteria and some organic chemicals, which are bigger than 0.001 μm. The small post carbon filter can adjust water pH value, remove unpleasant taste, odor or color, and make the water taste better.
